**Which best describes your position regarding the recommended changes to Administrative Rule R657-28?**

---

Neither agree nor disagree

**Which best describes your position regarding the proposed DWR fees?**

---

Strongly agree

**Do you have any additional comments about these proposed fees?**

I support the division to raise the fees. I recommend the division to increase the Dedicated Hunter permit to 300\$ and only 1 Buck harvest in the 3 year program.

Everywhere else is pricing people out of participation, why are you guys starting to do it now? We already have to pay outrageous prices for ammo and other goods we need to hunt, and here you are increasing prices on the item that we absolutely need to go hunt or fish.

Some of the permit fees are also a joke. \$35 was borderline outrageous for a turkey tag, but man, \$40 is too steep. I know it's \$5, but I can go buy a bigger turkey than I'd shoot for \$25 at the grocery store.

I know these comments won't even be taken into account, so there's really no point. Just venting. Please listen to the community that pays your salaries.

**Do you have any additional comments about these proposed fees?** Its always unfortunate when the cost of anything goes up, however it is inevitable and I'm sure your costs have gone up over the last few years as well. I think these increases are manageable, compared to what I pay as a non resident in other states. I support your recommended increase.

**Do you have any additional comments about these proposed fees?** I understand the need for fee increase but ever small increase is taking Dads and family away from being able to take their kids and family's out to appreciate Utah hunting and fishing. You might think 5 dollars here and 30 dollars here is justifiable but it hurts the average joe when fishing and hunting is all that is left. Please find other means to generate the money needed and don't nickel and dime Utah residents. I Oppose Increases across the board on EVERY species. Have the Non Residents pay a larger increased fee's just like all other western states have gone to.

Pull the additional funds from the general fund. We have a hard time utilizing our resources as it is with the inflation. We are retired and it's hard to pay all the increases. I don't get 10% increases to compensate for inflation. Utahs general fund can handle it!!! Thank you

This is some [REDACTED]. Why don't you take some of the money from \$FW that you have allowed to pimp out our wildlife with for the last 10+ years, if you need more money. You've managed our wild resources into the ground with no signs of improvement on the horizon. Until our recreation experience increases overall, you have ZERO room to talk about increasing any prices. We already pay our "fees" when we clock into work every day. You work for us and have done nothing to deserve any kind of raise in recent times. I don't care about your inflation problems.

On a side note, it's really [REDACTED] up that this was posted when half the regions opportunities for a comment submission has already expired. It's par for the course coming from the RACs and WB, but still extremely disappointing. Just when I think things can't get any worse, you clowns say hold my beer and watch this....

**Do you have any additional comments about these proposed fees?** This proposal will eliminate further many who will not be able to afford or out of principle will not pay these over priced fees. You will alienate the Division even further from the trust of the public and their willingness to support the Division. The pay back for what you require is not what the public expects (numbers of animal, sizes or age class, opportunities for acutally harvesting).
